

Y - TYPE STRAINER IN ALUMINIUM BRONZE

Avarus Valves Y-type strainer filters fluids to give protection to valves or components in a system. Made from aluminium bronze for high resistance to sea water and other arduous fluids. Simple design and very easy to clean and maintain.

Features

- Sizes 1/2" to 12" (larger sizes on request).
- Aluminium Bronze.
- Monel or stainless steel strainer element.
- ASTM 193 B7 & ASTM B194 2H steel fasteners (optional PTFE coated).
- Non-asbestos joint.
- Horizontal or vertical installation.
- Flanged Ansi 150# or 300# RF or FF.
- Tested to API598.

Application

- Suitable for sea water.
